Unit Study

We finished our 1st focus in our study on pets. We talked about what we know about pets and what we wanted to find out. We began our 2nd focus which is finding out the characteristics of pets and what kind of animals are pets. We talked about how pets mostly live in or around our houses, they are tame and not dangerous and we can touch them.

We read about a book about a fish in Swimmy, a dog in Whistle for Willie and a cat in Cookie's Week.

Our WOW or special experience this week was when we brought our stuffed animals to school! We listened to the story with our animals, sorted the animals by color of eyes, tails or no tails,

etc., and moved like the animals we brought.

We also practiced clapping syllables, using position words with little plastic puppies (under, on, in front of, beside, etc.) and tallying our favorite pet (cat, dog or bird). Our gross motor focus was balancing: jumping, hopping and using the balance beam.

Calendar

Thurs, March 12: 2pm dismissal

Fri, March 13: NO CLASSES

Tues, March 17: St. Patrick's Day

Fri, March 20: SIP Day; no PM classes

PLEASE CHECK YOUR CHILD'S TUB EVERY DAY WHEN YOU GET BACKPACKS!!
