

Back-to-school? Keep kids healthy any time, any where

MeMD Telemedicine gives you and your family convenient access to trained medical providers to help treat minor ailments quickly and easily—right over your phone or computer.

Get Trusted, High Standard Care

MeMD's national network of providers offers consultations and care instructions for:

- Allergies
- Abrasions, bruises
- Colds, flu, fever
- Sore throat, cough, congestion
- Bites and stings
- Hives, skin infections
- Eye infections, pinkeye
- Body aches
- Diarrhea, vomiting, nausea
- Minor headaches

Arrange for an Appointment

When you need to speak to a medical provider

- Visit: www.memd.me/group/wasa
- Or Call: 844.800.7110

Register and request a visit with a provider. You will be matched with a MeMD medical provider in your area who will review your symptoms, give you a diagnosis, and provide a treatment plan right on the spot.

Your entire family is covered

You, your spouse, and dependent children can use the MeMD service. MeMD is HIPAA compliant and completely confidential.

MeMD is being offered to you at no cost for a phone or online consultation.

All medical consultations and treatment plans are confidential and are the sole responsibility of the individual requesting services and MeMD. Health Advocate is not responsible for any outcome as a result of consultation with any MeMD providers. Health Advocate does not replace health insurance coverage, provide medical care or recommend treatment. Health Advocate is not affiliated with any insurance company or third party provider, and it complies with the latest governmental privacy standards. If you think you may have a medical emergency, call 911 immediately. Health Advocate does not recommend or endorse any specific tests, physicians, products, procedures, opinions, or other information that may be recommended by MeMD. Reliance on any information provided by MeMD is solely at your own risk.
